1.

The Oregon Medical Board (Board) is the state agency responsible for licensing, regulating and disciplining certain health care providers, including physicians, in the state of Oregon. Maury Nelson Blitman, MD (Licensee) is a licensed physician in the state of Oregon and holds an active medical license.

2

The Board received credible information regarding Licensee that resulted in the Board initiating an investigation. The results of the Board's investigation to date have raised concerns to the extent that the Board believes it necessary that Licensee agree to certain terms until the investigation is completed.

3

In order to address the Board's concerns, Licensee and the Board agree to the entry of this Interim Stipulated Order, which is not an admission of any wrongdoing on the part of the Licensee, and will remain in effect while this matter remains under investigation, and provides that Licensee shall comply with the following conditions:

3.1 Licensee will not conduct any breast or pelvic exam with a female patient without a medically trained chaperone being present throughout the course of the exam. The presence of the chaperone will be immediately documented in the patient chart. The chaperone shall be medically trained and not a friend or relative of the patient or physician.

111

3.2 Licensee understands that violating any term of this Order may be grounds for disciplinary action under ORS 677.190(17), willfully violating Board order.

3.3 Licensee understands this Order becomes effective the date he signs it.

4.

At the conclusion of the Board's investigation, the limitation placed on Licensee will be reviewed in an expeditious manner. If the Board determines, following that review, that these limitations shall not be lifted, Licensee may request a hearing to contest that decision.

5

This order is issued by the Board pursuant to ORS 677.265 while the Board conducts its investigation for the purpose of fully informing itself with respect to the performance or conduct of the Licensee and Licensee's ability to safely and competently practice medicine. Pursuant to ORS 677.425, Board investigative materials are confidential and shall not be subject to public disclosure, nor shall they be admissible as evidence in any judicial proceeding. However, as a stipulation this Order is a public document, and is reportable to the National Databank and the Federation of State Medical Boards.
